

Subject: Call for Presenters – Share Your Expertise with the IVAN NMR Users Group!

Dear NMR Community,

As part of our ongoing efforts to foster collaboration and knowledge sharing within IVAN Users Group, we are inviting members of the community to volunteer as presenters for our upcoming virtual meetings.

Whether you have cutting-edge results, an innovative application, a unique problem-solving approach, or just a passion for NMR you'd like to share, we'd love to hear from you! Presentations can range from 20 to 30 minutes and can focus on research, tools, techniques, challenges, or anything that might benefit the NMR Community.

Why present?

- Share your work with a broad audience of engaged NMR professionals
- Gain visibility and feedback from the community
- Help inspire new ideas and collaborations

Meeting Details:

- Format: Monthly virtual Zoom meetings (typically last Thursday of each month)
- Flexible scheduling
- Casual, discussion-friendly environment

If you're interested in presenting (or would like to nominate someone), please contact me directly at info@ivanmr.com.

We appreciate your support in making the IVAN NMR Users Group an engaging and valuable space for everyone.

Best regards,

Eric B. Schatzlein

Producer, IVAN NMR Users Group
