

Lecture of Organic Chemistry and NMR Instrumentation

New Jersey Institute of Technology (NJIT) Department of Chemistry and Environmental Science invites applications for a non-tenure track lecturer position. The candidate will teach primarily organic chemistry. Teaching may include day and evening courses. Teaching assignments may also include upper level courses in the area of expertise.

Candidates should have a PhD in Chemistry or closely related field and substantial experience in NMR spectroscopy, including instrument operation, maintenance, and training. In addition, the position includes regularly scheduled office hours to advise and assist students, participate in course and program development, and take part in student events and external outreach activities as required.

The department offers a BS, MS and PhD in both Chemistry and Environmental Science. Applicants must apply online at <https://njit.jobs>, and search for job posting # 0603456. Online applications should include a letter of application, curriculum vita, teaching philosophy and interests, and names of at least three references. Inquiries can be sent to belfield@njit.edu Review of applications will begin immediately and continue until the position is filled. *To build a diverse workforce, NJIT encourages applications from individuals with disabilities, minorities, veterans and women. EEO employer.*
